Professional Summary

Computer Science student with hands-on experience building software products and educational technology. Founder of StackVerse Labs and creator of StackVerse, a gamified learning platform that teaches Data Structures and Algorithms through interactive worlds, progression systems, and visualisations.

Education

Dayananda Sagar University, Bengaluru
B.Tech – Computer Science & Engineering (Core)
Expected Graduation: 2028 | CGPA: 6.9/10

Technical Skills

JavaScript, Java, SQL, React.js, HTML, CSS, Firebase, Firestore, Git, GitHub, Vercel, Power BI, RapidMiner, Data Structures & Algorithms, DBMS

Leadership & Experience

Founder & Developer – StackVerse Labs (2025–Present)

- Founded and developed StackVerse, a gamified DSA learning platform.
- Built six interactive learning worlds: Stack, Queue, Linked List, Tree, Heap, and Graph.
- Implemented authentication, XP progression, achievements, missions, and visual algorithm demonstrations.
- Managed product design, deployment, documentation, and roadmap.

Projects

StackVerse – Gamified DSA Learning Platform

React.js • Firebase • JavaScript • Vercel

- Developed a live educational platform with interactive DSA visualisations.
- Designed progression systems, achievements, and immersive learning experiences.
- Publicly deployed and actively maintained.

OTT & Music Streaming Trends Analysis

Power BI • RapidMiner

- Analysed Netflix, Amazon Prime, Apple Music, and IPL datasets.
- Built dashboards and Decision Tree classification models.
- Achieved approximately 83.75% classification accuracy.

Certifications

- AWS Cloud Practitioner Mastery – 91%
- Infosys Springboard Power BI Certificate
- RapidMiner Machine Learning Certificate
